Re: Application for the position of Frontend Engineer

25 May 2022

To recruiter of Zalando

I have obtained my Bachelor of Hotel Tourism, where I have gained my hospitality skills. Although I have greatly enjoyed customer service roles in the past, I am looking for a new challenge that will provide me with the opportunity to develop my Frontend Engineer career.

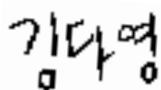

In my previous experience as a Frontend developer at Coinvest, I worked as a contributing member of the IT Division. My role involved extensive fieldwork including implementing visual elements, communicating with backend developers and building reusable code etc. This experience highlights my ability to optimize application for maximum speed and scalability. Vue.js, Vanilla JavaScript, HTML, CSS, Rest api, Git, and Websocket are my area of expertise.

I am excited to be applying to Zalando and for the opportunity to build and operate a modern web application to show the fashion and lifestyle more UI friendly.

Please find attached my CV and portfolio. Feel Free to contact me directly should you require anything further. Currently I have a work visa and am keen to relocate to Dublin, Ireland.

Thank you for time and I look forward to hearing from you.

Best regards,

A handwritten signature in black ink, appearing to read '김다영' (Kim Dayoung).
